

Automotive Belt Tensioner Pulley Part 88440-0K010 For Hyudnai Accent

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 88440-0K010
- Minimum Order Quantity: 20 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Product Name: Belt Tensioner Pulley
- Car Make: For Hyudnai Accent For Kia Rio
- Application: Automotive
- Warranty: 12 Months
- Package: Any Color Box According To Customers' Requirement
- Quality: 100% Tested
- Highlight: **Automotive Belt Tensioner Pulley,
Belt Tensioner Pulley Part, 88440-0K010**

Product Description

88440-0K010 Belt Tensioner Pulley 88440 0K010 For Hyudnai Accent For Kia Rio

Product Description:

A **tensioner pulley** is an essential part of a vehicle's accessory belt system. It plays a key role in maintaining the proper tension of the accessory belt.

The accessory belt is connected to many essential engine components, such as the alternator, power steering pump, air conditioning compressor, and water pump. It is important for the tensioner pulley to ensure that the belt is properly aligned and engaged with these components, so that they can operate efficiently.

In conclusion, the tensioner pulley is an integral element of a car's accessory belt system as it enables the accompanying components to work properly.

Features:

Efficient Belt Tensioning

Our tensioner pulley is designed to efficiently maintain optimal tension on the accessory belt. This ensures proper power transmission to important engine components such as the alternator, power steering pump, or air conditioning compressor. Furthermore, it helps to prevent belt slippage, which can result in reduced system performance.

Smooth and Quiet Operation

Our tensioner pulley is outfitted with high-quality bearings that facilitate smooth rotation. This decreases friction and noise, providing a quiet and pleasant driving experience without sacrificing consistent belt tension.

Durable Construction

The tensioner pulley is built with exceptional resistance to heat, wear, and corrosion. It is made from tough materials that withstand the demands of daily driving, ensuring long-lasting performance and reliability under various operating conditions.

Precise Fit and Compatibility

We offer various pulleys that are specifically engineered to match the original equipment specifications of different vehicle makes and models. This ensures a precise fit and precise alignment with the accessory belt.

Quality Assurance

Our tensioner pulleys go through thorough testing to exceed industry standards. We source our products from manufacturers with a dedication to quality and performance, giving you the confidence that your component will maintain its reliability for years to come.

Support and Services:

Belt Tensioner Pulley Technical Support and Service:

24/7 online technical support

On-site service for installation and maintenance

Troubleshooting and technical advice

Software updates and upgrades

Free training courses for new customers

Warranty and return policy

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
