

54610-3X200 Auto Shock Strut Mount Replacement Parts TS16949

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54610-3X200
- Minimum Order Quantity: 10 PCS
- Price: USD3.57 ~ USD4.58
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Product Name: Auto Strut Mount
- Warranty: 24 Months
- Material: Rubber And Steel
- Packing: Any Box According To Customers' Requirement
- Car Make: For Hyundai
- Highlight: **Shock Strut Mount Replacement, Strut Mount Replacement Parts, Auto Shock Strut Mount**

Product Description

54610-3X200 Strut Mount for HYUNDAI GRANDEUR H-1 ix55 SANTA FE II KIA CARNIVAL III 54610 3X200

Product Description:

A **strut mount**, commonly referred to as a **suspension mount** or **shock mount**, is an important component of a car's suspension system. It acts as the attachment between the strut assembly and the body or chassis of the vehicle. This mount holds significant value in providing support, stability, and shock absorption for the suspension.

Features:

Our strut mount serves as a reliable connection point between the strut assembly and the vehicle's chassis or body. It provides maximum stability for the strut assembly, allowing it to successfully absorb shocks, impacts, and vibrations coming from the road surface.

The mount is fitted with rubber or polyurethane bushings, which dampen vibrations and reduce noise generated by the suspension system. This helps minimize the transmission of vibrations to the vehicle's body, delivering a quieter and more comfortable ride.

We design the strut mount to distribute the load and forces across the strut assembly. This helps prevent excessive stress on any single point to enable balanced weight distribution and optimize overall suspension performance.

The strut mount also enables proper suspension alignment by providing controlled movement to the strut assembly. This allows the wheels to remain consistently aligned with the road surface, resulting in even tire wear, improved handling, and increased vehicle stability.

For added durability and longevity, the strut mount is built using high-quality materials and tested for robustness. It is made to stand up to the harsh conditions of daily driving, maintaining reliable support and stability for your suspension system for an extended period.

Support and Services:

Auto Strut Mount Technical Support and Service

We provide technical support and service for Auto Strut Mount products. Our highly experienced team of technicians will assist you with any product issue you may have.

We offer a variety of services to help you get the most out of your Auto Strut Mount product. These services include:

Installation and setup assistance

Troubleshooting and diagnostic services

Replacement parts and components

Product upgrades and modifications

We are committed to providing the best customer service and technical support for your Auto Strut Mount product. If you have any questions or concerns, please don't hesitate to contact us.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
