5Q0121087H Coolant Hose Connector For AUDI VW Golf 2013-2019

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 5Q0121087H
- Minimum Order Quantity: 10 PCS
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-30 days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Application: Radiator Water Pipe
- Brand: OEM
- Pressure Rating: 1.6MPa
- Size: Standard
- Temperature Rating: 150

Product Description

Product Description:

Introducing our exceptional Water Coolant Hose Water Pipe that plays a critical role in transporting coolant fluid throughout your vehicle's cooling system. This hi-grade water coolant hose water pipe is meticulously engineered for unmatched precision and durability, ensuring maximum performance and reliable cooling. Here are some of the reasons why our product is exceptional:

Precision Engineering - Our coolant hose water pipe is engineered with precision to ensure the perfect fit.

Durable Design - Our product is made with high-quality materials for durability when exposed to extreme temperatures and pressures.

Reliable Performance - We take pride in ensuring that our water coolant hose water pipe provides optimal performance in all weather conditions.

Features:

Superior Construction

Our water coolant hose water pipe is expertly crafted using high-quality materials, such as reinforced rubber or silicone. These materials offer exceptional resistance to heat, pressure, and coolant chemicals. This construction ensures that the hose has strength, flexibility, and long-lasting performance even in demanding operating conditions.

Efficient Coolant Flow

The water coolant hose water pipe is a vital component responsible for circulating coolant fluid between the engine, radiator, heater core, and other cooling system components. Its main function is to transfer heat away from the engine, ensuring proper engine temperature regulation and preventing overheating.

Leak and Burst Resistance

Our water coolant hose water pipe is designed to withstand high pressures and temperature fluctuations, which minimizes the risk of leaks or bursts. It features reinforced layers and sturdy connectors that provide a secure and reliable connection, enhancing the overall integrity of the cooling system.

Temperature and Chemical Resistance

The water coolant hose water pipe is engineered to withstand extreme temperature variations and exposure to coolant chemicals. It resists deterioration, swelling, and cracking, ensuring consistent coolant flow and preventing coolant contamination.

Easy Installation

Our water coolant hose water pipe is designed for easy and straightforward installation. It is suitable for both professional mechanics and DIY enthusiasts, as it is a direct fit replacement for your vehicle's original water pipe. This ensures compatibility and a hassle-free installation process.

Quality Assurance

Our water coolant hose water pipe undergoes rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by trusted suppliers who prioritize quality and performance, providing you with a reliable and durable product.

Technical Parameters:

Attribute	Value
Product Name	Radiator Water Pipe
Size	Standard
Brand	OEM
Pressure Rating	1.6MPa
Temperature Rating	150
Application	Radiator Water Pipe, Radiator Water Pipe, Cooling System Tube

Support and Services:

Our Radiator Water Pipe product comes with a comprehensive technical support and service package. Our team of experts are available to provide guidance on installation, troubleshooting, and maintenance. We also offer repair and replacement services for any damaged or faulty parts. In addition, we provide regular updates on any product improvements or upgrades to ensure that our customers have access to the latest technology. Our goal is to ensure that our customers have a seamless experience with our product and feel confident in its performance.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for

example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
